

## About

Wolkenpark is a Swiss quartet founded in 2009 performing its own compositions using modern club styles like broken beats, chillout and drum'n'bass. They call their style «Urban Hybrid Sounds». Coming all from a jazz background (two of them teaching at Swiss jazz schools), they compose their tracks with heavy influences of rock and dj based music styles without being repetitive, mixing synthesized sounds, live looping and effects with the acoustic sound of their instruments.

## Tour 2023 feat. Rootwords

For their latest album, which was released in winter 2022, Wolkenpark teamed up with guest artist «Rootwords» on spoken word/rap.

## Lineup

Christoph «Kriz Flew» Flueler (tp, synth, loops, effects)

Julien Boss (rhodes, synthesizer, effects)

Jean-Pierre Schaller (eb, effects)

Johan Wermeille (dr, pads)

On demand: Rootwords (spoken word/rap): <https://soundcloud.com/rootwords>
