

Spiral Core's new single honours the brilliance of Depeche Mode

Available now on all major streaming platforms.

October 12, 2022 / Basel, Switzerland — Written as a tribute to one of Spiral Core's most notable influences, the new single "Words" pays homage to Depeche Mode, the world-renowned electronic music group that defined the sound of the '80s.

Reading like an open letter, "Words" expresses deep honesty about the artistic process. Lines such as "Often feels like a first draft / But I know it'll be worthwhile" recognize the profound struggle of rising to the level of such an inimitable musical force. As trailblazing musicians, Depeche Mode hold a particularly pivotal position of influence on Spiral Core. Beyond their instrumentals and lyrics, the unique mood-creating magic of their sound has endured for decades — a magic that Spiral Core has tapped into for "Words."

The new single joins a catalogue of songs from Spiral Core that draw inspiration from numerous artists and genres scattered throughout the spacetime continuum, seamlessly woven together like cosmic strings into something beautiful, benevolent, and transformative.

About Spiral Core

Drawing influences from multiple musical genres across time and space, Spiral Core radiates from the deepest black of cosmic nothingness into vibrant and abundant life through the conduit of founding member Martin Bonauer. Fueled by transcendent energy, Spiral Core's music fuses the spiritual with the eternal to tell stories from every chapter of the book of life, both personal and universal. In this uplifting and awe-inspiring musical odyssey, all are invited along for the journey.
