

Berlin based and operated, yet Paris bred and raised, Jean Yann Records is an independent music label focused on house, deep-house and techno music. Evolving in the Berlin scene for over 7 years now, the duck-faced label has released more than 25 artists worldwide with tracks ranging from downtempo electronica or ambient to peak-time techno!

Jean Yann Records presents *VOICES*, Konstantin Scharf's second EP. For this 3 track episode Konstantin has stepped up his game and delivered dark, psychedelic, progressive and sophisticated music. The first two tracks are from the young talent himself, the last one is a remix by label producer Philippe Autuori. Oscillating between dub techno and progressive house the first two smash hits of this EP are real warehouse anthems. The third piece is a more relaxed vibe with groovy house notes. *VOICES* is the earworm you've been waiting for and it's here to stay!

Konstantin Scharf - Concentrate

Close your eyes, take a deep breath and let the beat create the atmosphere. Jean Yann Records young talent Konstantin Scharf has put on some experience and one can hear it. "Concentrate", the first track of this EP mixes progressive distortions with dark vocals and a boosted bassline. Bunker rave ready, this banger ought to be listened to with the volume UP.

Konstantin Scharf - Observation

Next up is "Observation", a gradually building-up deep and progressive track. Beware, listening to this production comes at a cost, be sure to keep control whilst listening! Deep and always developing this gem throws the listeners into a spiral. Between the sliced-up claps, the spooky vocals and countless effects "Observation" is nerve racking and delicious at the same time.

Philippe Autuori, Konstantin Scharf - Concentrate (Philippe Autuori Distracted Remix)

For this last track, Konstantin partnered with Philippe Autuori, long-time label friend and mentor. One can only notice the shift in genres from the onset. With a quick clap, a lighter mood and a waterfall of rifs, effects, vocals and surprises this "Distracted Remix" has something of Summer Hit blended with a dark club vibe. Focussed or distracted enjoy a track which will make you nod forever.
